

Benefits of having Brandt Insurance represent you

Claims

If one of your employees suffers an injury on the job, as your broker, we will provide immediate advice and guide you through the process.

We work with the claims adjusters to ensure the claim is handled quickly and appropriately.

Safety Services

We offer safety services and consultations in preventing workplace accidents.

Claims Reserving

We are also the intermediary between the employer and the insurance carrier to prevent misunderstandings that can lead to over-reserving of a claim.

X-Mod Review

We review experience modifications (X-Mods) for employers. We review carefully to find any audit, reporting, reserving mistakes. Mistakes can lead to higher X-Mods, and the employer paying too much.

Fraudulent Claims

We can assist with the reporting and managing of a claim in which the employer suspects fraud.

Audit Disputes

We can mediate with the insurance company if an employer disagrees with an audit prepared on the employer.

Competitive Pricing

With access to every major insurance company, Brandt Insurance will take the time to shop your workers compensation program with numerous carriers.

X-Mod Forecasting

We have the ability to accurately project and forecast experience modifications for the next policy period, before it is published by the bureau.

WORKERS COMPENSATION

It's a Must-Have

We're here to make sure your business - and each employee - is always protected. We'll help you secure the right coverage, as well as provide tools to improve job safety and control losses. Our affiliations and direct appointments with nearly every major workers compensation market enables us to find you the most competitive prices.
